

NEW SERIES: PALGRAVE STUDIES IN COMMUNICATION FOR SOCIAL CHANGE

SERIES EDITORS:

Pradip Ninan Thomas, Elske van de Fliert and Lauren Leigh Hinthorne, Centre for Communication & Social Change, The University of Queensland, Australia

OBJECTIVES:

This book series specifically explores new thinking in **Communication for Social Change (CSC)** theory, methods and policy. Intentionally inter-disciplinary, it explores CSC in the context of multiple interfaces between culture, technology, political economy and social change. The series spotlights ingenuity in theory, innovation in methods, and novelty in exploring policy issues.

- **To establish** a creative, innovative book series that contributes to filling the gaps in current knowledge about CSC;
- **To generate** a series of studies that are textured, grounded and able to account for the complex variables that affect CSC practice;
- **To engage** with and expand on the theory of CSC;
- **To investigate** new research methods compatible with CSC;
- **To explore** emerging dimensions of CSC in the context of interfaces with new technologies and mediated practices;
- **To create** a body of knowledge on policy making in areas relevant to CSC, and to explore how these policies influence the CSC agenda.
